

Facilities Owned or Leased by Executive Branch Agencies, January 2004

Table of Notes

- a The "Agency" column provides the agency responsible for the maintenance and operation costs of the property.
- b The "Agency Square Footage" column reports the number of square feet used by the agency for the specified property. For properties that are occupied by more than one state agency, we have estimated the number of square feet occupied by each agency. The word "Unit" in this column denotes that the property is leased as one whole unit. The number of square feet for these properties are unavailable.
- c The FY04 "Maintenance and Operation Budget for Property Paid by DOA" column reports the FY2004 maintenance and operation budget for the specified property that is paid by the Department of Administration. For properties that are occupied by more than one state agency, we have estimated the maintenance and operation budget for the specified agency based on the percentage of square feet occupied by the agency.
- d The "Annual Maintenance and Operation Costs Paid by Department" reports the FY2004 maintenance and operation budget for the specified property that is paid by the specified agency.
- e The "Agency Comments" column provides comments by the specified agency regarding the property.
- f The "Total Annual Lease Cost" column reports the annual lease cost for the specified property. For properties that are occupied by more than one state agency, we have estimated the annual lease cost for each agency based on the percentage of square feet occupied by the agency.
- g The "Annual Maintenance and Operation Costs" column reports the FY2004 maintenance and operation budget for the specified property (that is not included in the lease agreement) that is paid by the specified agency.
- h The "Square Feet Reported by DH&SS" provides the square footage as reported by the specified department (where the amount differs from that reported by Division of General Services).
- j The "Total Annual Lease Cost According to DH&SS" Annual lease cost as reported by the specified department (where the amount differs from that reported by Division of General Services).
- k The "Number of Employees Assigned to Property" column provides the number of state employees that report to duty on a routine, daily basis. The number of employees at each facility may increase significantly during military exercises.
- l The Department of Administration did not provide any leased properties for the Alaska Court System. The Alaska Court System provided all of the information contained in this table.

Agency ^(a)	Property Description	Town	Agency Square Footage ^(b)	FY04 Maintenance and Operation Budget for Property Paid by DOA ^(c)	Number of Employees Assigned to Property	Annual Maintenance and Operation Costs Paid by Department ^(d)	Agency Comments ^(e)
All Divisions Statewide	Various locations statewide	Various		NA	Not Reported	\$ 304,400	Added by Legislative Research - This figure represents half of DPS's FY2004, facility maintenance costs (excluding housing units noted above). The DPS is unable to allocate these facility costs to a specific facility. The other half is allocated to DPS's leased properties.
Total			246,870	\$ 114,729	343	\$ 658,100	

Additional Notes:

- **Property Description:** Properties described as "Housing Unit" or "Living Quarters" are housing units occupied by State Troopers in rural locations. Troopers pay rent and utility costs in accordance with bargaining unit contract provisions. In FY2004, the budget for rural trooper housing costs, including a building management specialist position and utility costs, is \$718,100.

- **Number of Employees Assigned to Property:** Position counts for the state-owned and leased facilities do not equal the total number of authorized positions in the department because some facilities (not shown here) are owned by DOT/PF, most notably the DPS facilities at Tudor Road in Anchorage.

- **Annual Maintenance and Operation Costs Paid by Department:** DPS does not budget costs for each individual facility. Individual facility costs shown here are those clearly attributable to that particular facility. In FY2004, the entire facility maintenance costs (excluding housing units noted above) were budgeted at \$608,800.
